(An Exploration Stage Company)

Notes to Interim Consolidated Financial Statements
(Expressed in Canadian Dollars)

For the Nine Month Periods Ended 30 November 2009 and 2008
(Unaudited – Prepared by Management)

1. Nature and Continuance of Operations

Linux Gold Corp. (the “Company”) was incorporated on 27 February 1979 in Canada under the British Columbia Company Act and was extra-provincially registered in the Province of Alberta on 12 October 1995. The Company’s stock trades on the Over the Counter Bulletin Board in the United States under the symbol “LNXGF”.

On 20 February 2003, the shareholders approved a change of name to Linux Gold Corp. and increased the authorized share capital to 200,000,000 common shares without par value. The Company had been previously pursuing various business opportunities and, effective 1 March 2003, the Company changed its principal operations to mineral exploration. Accordingly, as of 1 March 2003, the Company is considered to be an exploration stage company.

The Company’s unaudited interim consolidated financial statements as at 30 November 2009 and for the nine month period then ended have been prepared on a going concern basis, which contemplates the realization of assets and the settlement of liabilities and commitments in the normal course of business. The Company has a loss of \$333,485 for the nine month period ended 30 November 2009 (2008 – \$429,211) and has a working capital deficit of \$135,945 at 30 November 2009 (28 February 2009 – \$296,083).

Management cannot provide assurance that the Company will ultimately achieve profitable operations or become cash flow positive, or raise additional debt and/or equity capital. Management believes that the Company’s capital resources should be adequate to continue operating and maintaining its business strategy. However, if the Company is unable to raise additional capital in the near future, due to the Company’s liquidity problems, management expects that the Company will need to curtail operations, liquidate assets, seek additional capital on less favorable terms and/or pursue other remedial measures. These consolidated financial statements do not include any adjustments related to the recoverability and classification of assets or the amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

At 30 November 2009, the Company has suffered losses from exploration stage activities to date. Although management is currently seeking additional sources of equity or debt financing, there is no assurance these activities will be successful. These factors raise substantial doubt about the ability of the Company to continue as a going concern. The interim consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

2. Basis of Presentation and Consolidation

These unaudited interim consolidated financial statements have been prepared in accordance with United States generally accepted accounting principles for interim financial information using the same accounting policies and methods of application as the audited consolidated financial statements of the Company for the year ended February 28, 2009. These unaudited interim consolidated financial statements do not include all the information and note disclosures required by generally accepted accounting principles for annual financial statements of the Company and should be read in conjunction with the audited consolidated financial statements of the Company as at February 28, 2009.

Notes to Interim Consolidated Financial Statements
(Expressed in Canadian Dollars)

For the Nine Month Periods Ended 30 November 2009 and 2008
(Unaudited – Prepared by Management)

In the opinion of management, all adjustments considered necessary for fair presentation have been included in these financial statements. Interim results are not necessarily indicative of the results expected for the fiscal year.

These unaudited interim consolidated financial statements include the accounts of the Company and its inactive wholly-owned subsidiary LinuxWizardry Inc., a United States corporation. All significant inter-company balances and transactions have been eliminated.

Recent accounting pronouncements

In July 2009, the Financial Accounting Standards Board (the “FASB”) issued SFAS No. 168, “*The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles*”. SFAS No. 168 will become the single source of authoritative nongovernmental U.S. generally accepted accounting principles (GAAP), superseding existing FASB, American Institute of Certified Public Accountants (AICPA), Emerging Issues Task Force (EITF) and related accounting literature. SFAS No. 168 reorganizes the thousands of GAAP pronouncements into roughly 90 accounting topics and displays them using a consistent structure. Also included is relevant Securities and Exchange Commission guidance organized using the same topical structure in separate sections. SFAS No. 168 will be effective for financial statements issued for reporting periods that end after 15 September 2009. The adoption of SFAS No. 168 is not expected to have a material impact on the Company’s consolidated financial statements.

In June 2009, the FASB issued SFAS No. 167, “*Amendments to FASB Interpretation No. 46(R)*”. SFAS No. 167 is intended to establish general standards of financial reporting for companies with variable interest entities. It requires timely and useful disclosure of information related to the Company’s involvement with variable interest entities. This disclosure should alert all users to the effects on specific provisions of FASB Interpretation No. 46 (revised December 2003), *Consolidation of Variable Interest Entities*, related to the changes to the special-purpose entity proposal in SFAS No. 166, *Accounting for Transfers of Financial Assets*, and the treatment of specific provisions of Interpretation 46(R). SFAS No. 167 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2009. The Company has determined that the adoption of SFAS No. 167 will have no impact will have on its consolidated financial statements.

In June 2009, the FASB issued SFAS No. 166, “*Accounting for Transfers of Financial Assets—an amendment of FASB Statement*”. SFAS No. 166 is intended to establish standards of financial reporting for the transfer of assets and transferred assets to improve the relevance, representational faithfulness, and comparability. SFAS No. 166 was established to clarify derecognition of assets under SFAS No. 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities*. SFAS No. 166 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2009. The Company has determined that the adoption of SFAS No. 166 will have no impact will have on its consolidated financial statements.

In May 2009, the FSAB issued SFAS No. 165, “*Subsequent Events*”. SFAS No. 165 is intended to establish general standards of accounting for and disclosure of events that occur after the balance sheet date, but before financial statements are issued or are available to be issued. It requires the disclosure of the date through which an entity has evaluated subsequent events and the basis for that date—that is, whether that date represents the date the financial statements were issued or were available to be issued. This disclosure should

alert all users of financial statements that an entity has not evaluated subsequent events after that date in the set of financial statements being presented. SFAS No. 165 is effective for financial statements issued for fiscal years and interim periods ending after June 15, 2009. The Company is evaluating the impact that the adoption of SFAS No. 165 will have on its consolidated financial statements.

In May 2008, the FASB issued SFAS No. 162, *“The Hierarchy of Generally Accepted Accounting Principles”*. SFAS No. 162 is intended to improve financial reporting by identifying a consistent framework, or hierarchy, for selecting accounting principles to be used in preparing financial statements that are presented in conformity with GAAP for nongovernmental entities. Prior to the issuance of SFAS No. 162, GAAP hierarchy was defined in the American Institute of Certified Public Accountants (“AICPA”) Statement on Auditing Standards (“SAS”) No. 69, *“The Meaning of Present Fairly in Conformity with GAAP”*. SAS No. 69 has been criticized because it is directed to the auditor rather than the entity. SFAS No. 162 addresses these issues by establishing that the GAAP hierarchy should be directed to entities because it is the entity, not its auditor, that is responsible for selecting accounting principles for financial statements that are presented in conformity with GAAP. SFAS No. 162 is effective 60 days following the Securities and Exchange Commission’s (“SEC”) approval of the Public Company Accounting Oversight Board Auditing amendments to AU Section 411, *“The Meaning of Present Fairly in Conformity with Generally Accepted Accounting Principles”*. The Company does not expect SFAS No. 162 to have a material effect on its consolidated financial statements.

5. Mineral Properties

Alaska Mineral Properties

Granite Mountain Property and Dime Creek Property

The Company has a total of 176 mining claims in Granite Mountain and 12 mining claims in Dime Creek, which are located near Nome in the State of Alaska.

Livengood Property

The Company has a total of 8 mining claims located in the Livengood-Tolovana Mining District, Alaska, USA, known as the Livengood Claims.

Fish Creek Property

The Company owns a 50% joint interest in 30 claims located in the Fairbanks Mining Division, Alaska, USA, known as the Fish Creek Claims. During fiscal 2003, the Company optioned a 50% interest in the 30 Fish Creek Claims to Teryl Resources Corp. ("Teryl"), a related company (Note 8). Under the terms of the agreement, Teryl issued 200,000 common shares to the Company at a fair value of \$80,000 and must expend \$500,000 over three years.

The Company retained a 5% net royalty interest, until US\$2,000,000 has been received, and may convert into a 25% working interest. The Company entered into an amending agreement with Teryl to extend the term of the original agreement until 7 March 2007, in which Teryl issued 100,000 common shares to the Company, and also agreed to expend a minimum of US\$500,000 within two years from the date of that amending agreement. All other terms of the original agreement remain the same. Subsequently, the Company entered into a further agreement with Teryl to extend the term of the original agreement until 5 March 2010.

Exercisable at 30 November 2009	<u>806,250</u>	<u>0.25</u>
Weighted average fair value of stock options granted during the period		<u>0.02</u>

The fair value of each option granted was estimated on the date of the grant or modification using the Black-Scholes pricing model with the following weighted average assumptions:

	For the nine month period ended 30 November 2009	For the nine month period ended 30 November 2008
Risk free interest rate	1.63%	-

Option pricing models require the input of highly subjective assumptions including the expected price volatility. Changes in the subjective input assumptions can materially affect the fair value estimate, and therefore the existing models do not necessarily provide a reliable single measure of the fair value of the Company's stock options.

12. Management of Financial Risk

a) Fair value

The carrying values of all held-for-trading and held-to-maturity instruments, represented by cash and cash equivalents, Goods and Service Tax receivable, accounts payable and accrued liabilities and amounts due to related parties, approximate their fair values because of the short-term maturity of these financial instruments. The aggregate fair value of all held-for-trading instruments is (\$2,324) (28 February 2009 - \$13,894). The aggregate carrying value and fair value of all held-to-maturity assets is \$4,840 (28 February 2009 - \$7,938).

Available-for-sale securities consist of common shares in a company related by common directors and is represented as marketable securities on the consolidated financial statements. The fair value of these securities is \$306,020 (28 February 2009 - \$78,000) and losses included in accumulated other comprehensive loss is \$7,243 (28 February 2009 - \$268,000).

b) Interest rate risk

The Company is not exposed to significant interest rate risk due to the short-term maturity of its monetary assets and liabilities.

c) Credit risk

The Company's financial asset that is exposed to credit risk consists primarily of cash and cash equivalents. To manage the risk, cash is placed with major financial institutions. The Company does not have significant concentrations of credit risk in regards to its amounts receivable and allows for any uncollectible accounts on a specific identification basis based on payment history.

d) Currency risk

The Company translates the results of its foreign operations into Canadian currency using rates approximating the average exchange rate for the period.

The Company is exposed to foreign currency risk through the following financial assets and liabilities denominated in currencies other than Canadian dollars:

	As at 30 November 2009 US\$	As at 28 February 2009 US\$
Cash and cash equivalents	(26,498)	4,296
Accounts payable and accrued liabilities	91,384	85,446

As at 30 November 2009, with other variables unchanged, an approximately 10% change in exchange rates would increase/decrease pre-tax loss by \$6,891.

13. Subsequent Events

The following events occurred subsequent to 30 November 2009:

- a) On 18 December 2009, a total of 25,000 stock options exercisable at a price of US\$0.10 per common share were granted.
