3. Basis of Preparation

These unaudited consolidated interim financial statements ("Financial Statements") of the Fund for the six months ended June 30, 2008 (the "Period") and three months ended June 30, 2008 (the "Quarter") have been prepared by management in accordance with Canadian generally accepted accounting principles ("GAAP") using the same accounting policies as outlined in Note 5 and Note 6 of the consolidated financial statements of the Fund as at and for the year ended December 31, 2007 ("Annual Report") except as described in Note 4 below.

The preparation of these Financial Statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the Financial Statements and accompanying notes. Actual results could differ from those estimates. The Financial Statements have, in management's opinion, been properly prepared using careful judgment with reasonable limits of materiality. The unaudited consolidated interim financial statements do not conform in all respects to the disclosure requirements of Canadian GAAP for annual financial statements and should, therefore, be read in conjunction with the Fund's Annual Report.

These Financial Statements are reported in Canadian dollars and include the activities of the Fund, the Trust, the Limited Partnership with all its operating divisions, subsidiaries and the Fund's proportionate share of its joint ventures.

Certain prior year figures have been reclassified to conform to the current method of presentation.

4. Adoption of New Accounting Standards

Capital Disclosure, section 1535

Effective January 1, 2008, the Fund adopted the recommendations of section 1535 of the CICA Handbook. This section specifies the disclosure of (i) the Fund's objectives, policies and processes for managing capital; (ii) quantitative data about what the Fund regards as capital; (iii) whether the Fund has complied with any capital requirements; and (iv) if the Fund has not complied, the consequences of such non-compliance. These new disclosures are shown in Note 5.

Notes to Interim Consolidated Financial Statements

six month period ended June 30, 2008

4. Adoption of New Accounting Standards (cont.)

Inventories, section 3031

Effective January 1, 2008, the Fund adopted the recommendations of section 3031 of the CICA Handbook. This section requires inventory to be measured at the lower of cost and net realizable value. The standard also provides guidance on the costs that can be capitalized. In addition, previous inventory write-downs must be reversed if the economic circumstances have changed to support an increased inventory value. These new disclosures are shown in Note 6.

Financial Instruments, section 3862 and section 3863

Effective January 1, 2008, the Fund adopted the recommendations of sections 3862 and 3863 of the CICA Handbook. These sections revise and enhance disclosure requirements, and carry forward unchanged the former section 3861's presentation requirements. These sections place increased emphasis on disclosures about the nature and extent of risks arising from financial instruments and how the Fund manages those risks. Under the new standards, policies followed for periods prior to the effective date generally are not reversed and therefore, the comparative figures will not be restated except for any requirement to restate currency translation adjustments as part of other comprehensive income. These new disclosures are shown in Note 7.

Pronouncements

International Financial Reporting Standards ("IFRS")

All publically accountable enterprises will be required to report under IFRS for fiscal periods beginning on or after January 1, 2011. The Fund is currently evaluating the effects of adopting these changes.

Goodwill and Intangible Assets, section 3450

This section replaces Goodwill and other Intangible Assets, section 3062 and Research and Development Costs, section 3450. The standard addresses when internally developed intangible assets meets the criteria for recognition as an asset. These changes are effective for fiscal years beginning on or after October 1, 2008 with earlier adoption permitted and will be adopted by the Fund on January 1, 2009. The Fund is currently evaluating the effects of adopting these changes.

5. Capital Disclosure

The Fund defines managed capital as cash and cash equivalents, short and long term debt and equity, which is comprised of issued units, organizational costs, cumulative earnings and comprehensive income and distributions declared. The Fund's objectives in managing capital are primarily to provide a consistent, secure and growing source of cash for distribution to unit holders, maintain the productive capacity of the Fund, meet all debt servicing obligations and fund future expansions and acquisitions. The Fund may raise additional capital from time to time to pursue these objectives by issuing units or debt.

The Fund's debt facilities are subject to certain covenants as described in Note 12. As at June 30, 2008 the Fund was comfortably within all stated covenants. There were no changes to the Fund's overall capital management strategy during the Quarter.

6. Inventory

Inventories are recorded at the lower of cost or net realizable value, cost being determined by using the first-in first-out method. Inventories are limited to high turnover food, beverage and concession stuffs, uniforms and playing cards. During the Period there were no reversals of write-downs or provisions recognized in prior periods.

7. Financial Instruments

Canadian GAAP requires that financial instruments be classified into one of the five categories; held for trading, held to maturity, loans and receivables, available for sale financial assets or other financial liabilities. The carrying values of the Fund's financial instruments are categorized as follows:

	June 30, 2008	December 31, 2007
Cash, loans and receivables	13,895,798	14,624,601
Other financial liabilities	32,909,666	24,850,946

Notes to Interim Consolidated Financial Statements

six month period ended June 30, 2008

7. Financial Instruments (cont.)

The Fund's activities expose it to a certain financial risks. The Fund's risk management program focuses on the unpredictability of financial markets and endeavors to minimize the potential adverse effects on the Funds financial performance. The Fund does not purchase derivative financial instruments for speculative purposes. Material risks are monitored by management.

Fair value

The fair value of cash and cash equivalents, restricted cash, accounts receivable, notes receivable, accounts payable and accrued liabilities, term loan, due to/from related parties and unit holders distributions payable approximate their carrying value due to the short-term maturities of these instruments.

The fair value of the Class B Partnership units has not been determined as it is not practical to estimate the fair value of these financial instruments with sufficient reliability.

Foreign Exchange Risk

The Fund operates in Canada. The functional and reporting currency of the Fund is Canadian dollars. The Fund is exposed, in its normal course of operations, to exchange rate risk from foreign exchange rate fluctuations. Foreign exchange risk arises because a Canadian dollar receivable or payable transaction denominated in foreign currencies may vary due to changes in exchange rates at the time the transactions are settled. Any differences in the settled amounts are recorded as part of sales, cost of sales or expenses. Transactions in foreign currencies, mostly USA dollars, are not material. The Fund does not actively manage exposure to foreign exchange risk.

Interest Rate Risk

The Fund's interest rate risk arises primarily from its variable rate debt. At June 30, 2008, all of the Fund's debt is subject to movements in variable interest rates. At June 30, 2008 the Fund had \$28.6 million in variable rate debt. A +/- 1% change in interest rates would impact earnings by \$142,943.

Credit Risk

Credit risk arises from cash and cash equivalents held with banks and credit exposure to customers. The maximum exposure to credit risk is equal to the total financial assets referred to. The Fund, in the normal course of operations, monitors the financial condition of its customers. The Fund does not have significant exposure to any individual customer or counterparty. The Fund establishes an allowance for doubtful accounts that corresponds to the credit risk of its specific customers, historical trends or economic circumstances.

Carrying amounts of accounts receivable are reduced on an account specific basis when appropriate. The Fund does not currently carry an allowance for bad debts. Carrying amounts of accounts receivable are reduced by direct write-off to earnings in the period of loss recognition. At June 30, 2008, all aged receivables are current within stated credit terms and customer historical payment practices.

Notes to Interim Consolidated Financial Statements

six month period ended June 30, 2008

7. Financial Instruments (cont.)

Liquidity Risk

Liquidity risk arises from excess financial obligations over available financial assets due at any point in time. The Fund's objective in managing liquidity risk is to maintain sufficient readily available reserves in order to meet ongoing liquidity requirements. The Fund achieves this by maintaining a conservative payout ratio on distributable cash from operations and maintaining sufficient availability from committed debt facilities. The Funds current payout ratio on distributable cash from operations is 80.9% and availability on committed credit facilities is \$2.06 million.

Contractual commitments of the Fund are reported in Note 17.

8. Regulations

The Fund's gaming operations are subject to regulations imposed by the Alberta Gaming and Liquor commission. The Fund has provided letters of guarantee in favour of Alberta Gaming and Liquor Commission in the amount of \$48,000 for the purpose of maintaining liquor licenses.

9. Restricted Cash

Restricted cash consists of progressive jackpot funds. Progressive jackpots are divided into two pots. The first and larger of the two is reserved for the eventual winner of the jackpot. The second is used to seed the next pot after a jackpot is won. The progressive jackpot funds are not available for use in general operations. Included in accounts payable is \$28,359 relating to progressive jackpots.

11. Future Income Taxes

The Department of Finance announced proposed tax legislation which included a provision to eliminate the deduction of distributions from taxable income for certain forms of publicly traded income trusts and partnerships. The legislation was enacted law on June 12, 2007 at which time the Fund was required to give recognition to these new taxes.

The Fund accounts for income taxes using the asset and liability method. Under this method, future income taxes are recognized for all significant temporary differences between the tax and accounting treatment bases of assets and liabilities and for certain carry-forward items. Future income tax assets or liabilities are recognized only to the extent that, in the opinion of management, it is more likely than not that the future income tax asset or liability will materialize. Future income tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of the enactment or substantive enactment of the change. Future Income taxes were calculated using an implied tax rate of 31.5%.

The Fund will not be liable for current income taxes until January 1, 2011. At June 30, 2008 temporary differences giving rise to future tax are as follows:

	Net Value (tax basis)	Net Value (accounting basis)	Temporary Differences
Plant and equipment	33,772,082	40,558,108	6,786,026

12. Term Loans

The Fund, through the Limited Partnership, has a \$15.0 million demand term loan with the Canadian Western Bank (“CWB”). Interest on this loan is 1.0% above the CWB Prime Lending Rate. The Fund is making blended monthly principal and interest payments on a \$9.0 million segment of the loan amortized over 15 years. \$6.0 million of this loan is advanced on a revolving basis. There were no specific debt covenants attached to this loan other than the blended monthly repayments and its demand nature. Security for the loan includes;

- A promissory note
- General security agreement for first charge on Service Plus, Great Northern Casino and the Strip Mall. The Net Book Value of these assets at the end of the Quarter is \$13,692,559
- Demand collateral mortgage first charge on the total loan amount

- Assignment of all risk casualty and liability insurance

The Fund has a 40% Participating Interest Responsibility in the debt facilities of the Deerfoot Joint Venture. The Deerfoot Joint Venture has a loan secured by its land and buildings. Interest on this loan floats at 1.0% above the CWB Prime Lending Rate. The loan is structured in two segments. The Fund’s portion of the total outstanding balance of both segments of this loan is \$7.47 million. The Deerfoot Joint Venture loan has the following financial covenants:

- | | |
|-------------------------------------|--------|
| 1. Maximum debt to equity ratio of | 3.00:1 |
| 2. Minimum debt service coverage of | 1.25:1 |

The Fund has a 20% Participating Interest Responsibility in the debt facilities of the Stampede Joint Venture. The Stampede Joint Venture has a demand construction loan with Bank of Montreal (“BMO”) at the lenders prime rate plus 0.75%. The Stampede Joint Venture is currently taking advances on this loan to complete the construction of the new Stampede Casino. A construction take out loan has been arranged to supersede the construction loan on substantial completion of the project. A risk management facility has been arranged to facilitate interest rates swaps once the construction loan has been taken out. Interest on this loan is at the lenders prime rate.
