

HDX Closes Biz-Pro Acquisition.

Toronto, Ontario – Jan 17, 2008 - Hosted Data Transaction Solutions Inc. ("HDX") announced today that it completed the previously announced acquisition (the "**Acquisition**") of Biz-Pro Ltd. ("Biz-Pro").

The purchase price was an aggregate of \$3 million, subject to certain post-closing adjustments, consisting of \$2 million in cash and \$1 million in common shares of HDX, at a price of \$1.00 per Common Share for a total of 1,000,000 Common Shares (the "**Consideration Shares**") which will be subject to a 36 month hold period. The cash portion of the transaction was satisfied with cash that HDX had available in its treasury. No financing was required for this transaction and the parties to the transaction are at arms length.

HDX (formerly Dexit Inc.) is listed on the TSX under the symbol HDX.

Biz-Pro, established in 1975, is a profitable London based point-of-sale technology company with annual revenue of approximately \$3.2 Million. HDX recently announced the acquisition of Howell Data Systems QSR and Sabrepoint Inc. The historical annual revenue of these companies combined with Biz-Pro Ltd. is approximately \$10 million.

Specializing in solutions for the hospitality industry, Biz-Pro has fourteen employees and has deployed over twenty thousand systems across Canada. Biz-Pro provides services to thousands of customers including Compass Group Canada, Sodexo, Brown's Fine Foods, Mary Brown's Fried Chicken, and Lewisfoods.

"The completion of our acquisition of Biz-Pro is an important milestone towards our goal of building a significant organization dedicated to providing business control systems, business intelligence tools and consumer payment systems," says Paul Howell, president and CEO of HDX. "Jim and Kathy Jearvis have built a formidable company. Several Biz-Pro team members have over fifteen years of experience. Biz-Pro has been a leader in the Canadian point of sale industry for over thirty years and our corporate philosophies towards providing quality products and excellent customer service are closely aligned."

"These are exciting times for the Biz-Pro team," says Jim Jearvis, President of Biz-Pro. "The added features and benefits of the HDX product line will enhance our sales efforts and give us an opportunity to better serve our customer base. The larger combined company provides the extra team resources required to develop advanced technology and the ability to service customers in a wide geographic area."

Jim Jearvis and Chris Jearvis, VP of Operations will manage the day to day operation of the Biz-Pro organization moving forward.

"This is very positive news for both our client base and our team," says Chris Jearvis, VP of Operations. "This partnership gives Biz Pro the enterprise management tools that we have wanted to offer to our large client base for quite some time."

About the Company

HDX is in the business of managing merchant transactions with consumers and facilitating payment. HDX develops and deploys touch screen POS (point of sale) system software and associated enterprise management tools and has developed and deployed numerous POS applications. HDX also provides system hardware integration services, merchant staff training, system installation services, and post sale software and hardware support services.

Leading edge technology also includes customer self serve kiosks and "line buster" mobile point of sale terminals. These products have been designed to dramatically enhance customer throughput and drastically reduce customer queues. These technologies are especially effective in high foot traffic environments that have limited cash register counter space, limited retail square footage, and the absence of a drive through.

HDX pioneered an "instead of cash"[®] electronic based payment facilitation service. The Dexit[®] Service can be private branded for a specific merchant and enables customers to pay for items quickly and conveniently with the tap of a RFID (radio frequency identification) tag linked to a pre-paid account. This Dexit Service payment solution is especially well suited for corporate and institutional cafeteria environments where hundreds of customers purchase and pay for meals in compressed periods throughout the business day.
