

Hosted Data Transactions Solutions Inc. (HDX) Appoints New Chief Financial Officer

Toronto, Ontario – February 14, 2008 - Hosted Data Transaction Solutions Inc. ("HDX") announced today that its Board of Directors has appointed Kevin Mills to the position of Chief Financial Officer (CFO). Mr. Mills will assume the role from David Campbell who has been the CFO of HDX (formerly Dexit Inc.) since 2001.

Prior to joining HDX, Mr. Mills served as an audit manager with the accounting firm of PricewaterhouseCoopers LLP. Throughout his career at PricewaterhouseCoopers LLP, Mr. Mills was assigned to projects in Washington, DC, Toronto, San Diego and most recently London, Ontario offices. Mr. Mills holds a BCOM degree from Queen's University in Kingston, Ontario and is a Chartered Accountant, registered in the Province of Ontario.

"I am very pleased that Kevin has joined our company as Chief Financial Officer. I am confident that HDX's growth objectives, our recent acquisitions and the resulting required amalgamation of financial systems, and our ongoing cost cutting strategies will be enhanced with Kevin serving in this integral capacity," said Paul Howell, President and CEO of HDX. Further, Mr. Howell stated "On behalf of the Board of Directors and staff, I would like to thank David Campbell for his dedication and help in guiding the company in his capacity as CFO. We wish David all the best in his future endeavours."

David Campbell has assumed the role of Managing Partner with Belweather Capital Partners, a private investment fund focused on early stage technology investments.

About the Company

HDX is in the business of managing merchant transactions with consumers and facilitating payment. HDX develops and deploys touch screen POS (point of sale) system software and associated enterprise management tools and has developed and deployed numerous POS applications. HDX also provides system hardware integration services, merchant staff training, system installation services, and post sale software and hardware support services.

Leading edge technology also includes customer self serve kiosks and "line buster" mobile point of sale terminals. These products have been designed to dramatically enhance customer throughput and drastically reduce customer queues. These technologies are especially effective in high foot traffic environments that have limited cash register counter space, limited retail square footage, and the absence of a drive through.

HDX pioneered an "instead of cash"(R) electronic based payment facilitation service. The Dexit(R) Service can be private branded for a specific merchant and enables customers to pay for items quickly and conveniently with the tap of a RFID (radio frequency identification) tag linked to a pre-paid account. This Dexit Service payment solution is especially well suited for corporate and institutional cafeteria environments where hundreds of customers purchase and pay for meals in compressed periods throughout the business day.
