

HDX to Acquire Sabrepoint Inc.

Toronto, Ontario – Nov 14, 2007 - Hosted Data Transaction Solutions Inc. (“HDX”) announced today that it has signed a letter of intent to acquire Sabrepoint Inc. and Sabrepoint Services Inc. (“Sabrepoint”) for \$1,250,000 subject to closing adjustments. The purchase price will be satisfied by the payment of \$850,000 in cash and by the issuance of 400,000 HDX common shares. The cash portion of the transaction shall be satisfied with cash that HDX has available in its treasury. No financing is required for this transaction.

HDX (formerly Dexit Inc.) is listed on the TSX under the symbol HDX.

Sabrepoint, established in 1992, is a profitable Mississauga based point-of-sale technology company with annual revenue of approximately \$2.5 Million. Specializing in solutions for the quick service restaurant and fine dining industry, Sabrepoint has fifteen employees and provides systems and services to hundreds of customers including Tim Hortons, Copps Coliseum, Sodexo, and Tony Romas.

“We are very pleased to announce the agreement with Sabrepoint” says Paul Howell, president and CEO of HDX. “There are many great synergies and efficiencies that will be realized by merging our teams. For example, HDX has service technicians in cities where Sabrepoint does not and Sabrepoint has technicians in cities where HDX does not. Merging our software support teams will enhance and expand our customer support offering which will increase and protect merchant satisfaction. Sabrepoint’s wide base of merchants also provides an excellent source of potential customers for HDX’s Dexit Payment Solution, Cashier Intelligence solutions and Enterprise Management and Reporting Solutions”.

“The opportunity to join HDX is an exciting development for Sabrepoint” commented Rad Bazzul founder and president of Sabrepoint. “The ability to pool our resources and capitalize on the strengths of the combined team will result in a more complete product and service offering for our customers.”

The transaction is expected to close on December 15th 2007 and is subject to completion of due diligence by HDX, customary closing conditions, receipt of all necessary regulatory approvals and the negotiation and execution of a definitive purchase and sale agreement.

About the Company

Hosted Data Transaction Solutions Inc. is in the business of managing merchant transactions with consumers and facilitating payment. HDX develops and deploys touch screen POS system software and associated enterprise management tools and has developed and deployed numerous POS applications. HDX also provides system hardware integration services, merchant staff training, system installation services, and post sale software and hardware support services.

Leading edge technology also includes customer self serve kiosks and "line buster" mobile point of sale terminals. These products have been designed to dramatically enhance customer throughput and drastically reduce customer queues. These technologies are especially effective in high foot traffic environments that have limited cash register counter space, limited retail square footage, and the absence of a drive through.

HDX pioneered an "instead of cash" ® electronic based payment facilitation service. The Dexit® Service can be private branded for a specific merchant and enables customers to pay for items quickly and conveniently with the tap of a RFID (radio frequency identification) tag linked to a pre-paid account. This Dexit® Service payment solution is especially well suited for corporate and institutional cafeteria environments where hundreds of customers purchase and pay for meals in compressed periods throughout the business day.
